Freshman Year

Our first days of Freshman year were exciting. We were finally back to all in person schooling after Coronavirus flipped the world upside down. It was nice to see everyone again, and finally get back to "normal" life. After coming back to school a lot of us were struggling to find our place, and worried for the upcoming Science MCAS, but towards the end of the year we persevered and finished our first year of high school with a bang!

Sophomore Year

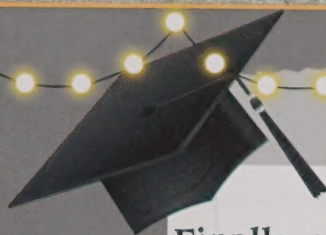

Sophomore year began with no mask mandate, so we could see all of our fellow classmates' faces again. We had to take our English and Math MCAS. Many nerves came with this, but also excitement since it was our last year taking the MCAS! Sophomore year was the year we started thinking about our future, and what we want to do with our lives after high school. When the end of this year came we were all excited to finally be upperclassmen!

Junior Year

When Junior year started, many of us had the moment of realization that high school is almost over which means more responsibilities. Not only did Junior year come with more responsibility, it also came with a new found freedom. Most of us obtained our driver's license, so watch out on the roads! As upperclassmen we also had the opportunity to join more events like Powderpuff and Prom! Then, we got to look forward to participating in these events as Seniors.

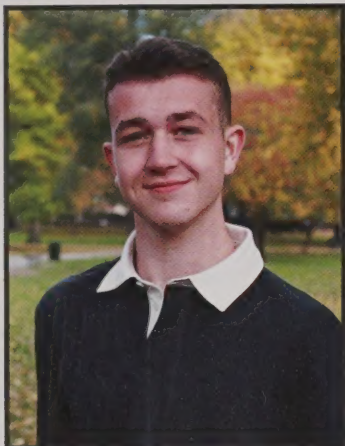

Senior Year

Finally came our last year of high school. This was the year we would make our mark on Agawam High. Senior year blessed us with many great memories like Senior Sunrise, our Senior Powderpuff game, and more! Our President and Vice President were Terence Cheung and Roy Kim, and our Historian and Secretary were Emma LaCaresse and Christina Ritter. These last four years have been a whirlwind, but we made it through. Good luck with the future, class of 2025!

STAFF RETIREES

Carla Lemnah-Warner

Carla Lemnah-Warner has been teaching for 43 years, and 36 of those have been at Agawam High School. Mrs. Warner's initial plan was to become a physical therapist. She ended up taking what was supposed to be a one year position as a Special Education Teacher, which kicked off her career in education. Not only has Mrs. Warner made her mark through teaching, but she has coached Varsity Lacrosse and Field Hockey, has been the JV Golf coach, and has assisted the Cross Country Team.

Mrs. Warner plans to spend time with her family during retirement. Her grandkids are starting to get more involved in sports and activities and she's excited to be there for them. She also plans to go to Scotland and Ireland to play some golf. Although she is excited for retirement, Mrs. Warner admits that she will miss the students, staff, and overall community at AHS!

"Always live your life with the enthusiasm of a child at play" ~ Mrs. Warner

"Bring sunshine to the world" ~ Mrs. Cilimberg

Nancy Cilimberg

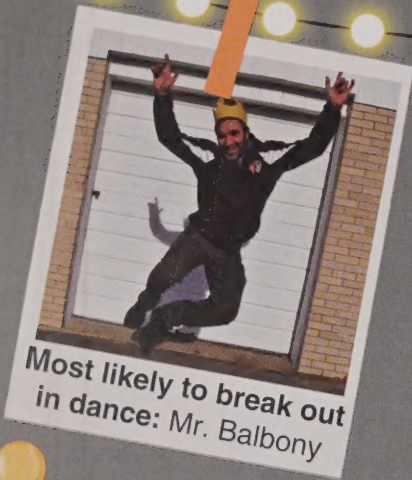

Nancy Cilimberg found herself at Agawam High School two other times before officially staying as a Special Education Teacher for a third time. At first, Mrs. Cilimberg went to college for psychology, but after teaching a presentation for a class, she was encouraged to become a teacher. She tried student teaching and loved it! She spent 6 years traveling the U.S. in a camper before settling down in Western MA to teach, and she's been here ever since!

When she retires, Mrs. Cilimberg plans to visit her niece in Spain, live in Italy for a couple of months, cook a lot, read, and teach some self-assertiveness courses for women. She hopes that she won't miss the structure of working at a school, so she plans to keep herself busy. Mrs. Cilimberg will miss working with the kids and seeing her friends every day!

The goal of Gwam Athletics is to shine a light on student athletes who go above and beyond each week and draw a larger crowd at our sports games. Thanks to our growing support within the past two years we were able to achieve that! As a result of Gwam Athletics, many students within our group have gotten amazing outside opportunities, as well as started up their own photography accounts. A special thanks to Ms. Gomez and Mr. Blain for working with our crazy ideas. And huge thanks to our Gwam athletics members, Andrew Bagley, Angela Privedenyuk, Christopher Bates, and Kiley Lukas! They racked up enough points to advance onto the NE FIRST District Champ. at the Big E, where they competed against the top teams! Rosie's team spirit won them the "Beach Bums" award at Bash @ The Beach, and their skills won them the Championship! Rosie rode the wave into the 2025 season to compete in this year's annual game, REEFSCAPE, which highlights environmental awareness and ocean conservation. Robotics teams compete to earn points by placing coral on an artificial reef, harvesting algae and suspending their robot from a hanging barge. Their underwater battles earned them a spot in the playoffs and a newly designed modular control system won them The Innovation in Control Award!

PATHWAYS

MANUFACTURING

Throughout this innovative program, students dive into classes such as Engineering, Machining, and CAD, where they don't just learn theory—they create, design, and build. With a focus on real-world problem-solving, students tackle challenges that mimic what they will encounter in actual manufacturing environments. Each class emphasizes critical thinking and practical application, ensuring students leave with not just knowledge, but a tangible skill set. Students have the unique opportunity to prepare for real-world success by completing a 100-hour internship at a local manufacturing or service business during their junior or senior year. On top of that, students can earn valuable certifications like the OSHA 10 and CSWA, opening doors to even more career opportunities.

HEALTHCARE

The Healthcare Pathway at AHS is designed for students interested in pursuing a career in the healthcare industry. In the pathway students obtain a solid foundation in medical terminology, hands on skills in how to take and assess vital signs, infection control and prevention, along with exploring healthcare careers in the 5 healthcare pathways that include: Therapeutic Services, Diagnostic Services, Health Informatics, Support Services, and Biotechnology Research and Development.

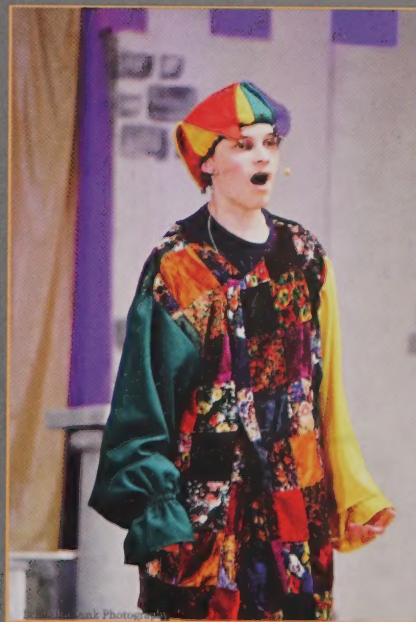

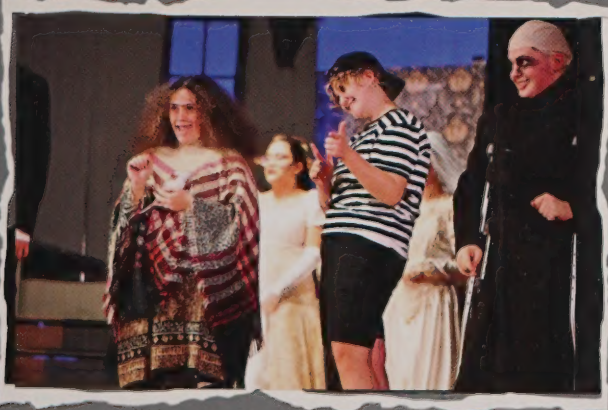

TECHNOLOGY

The IT Pathway at Agawam High School is designed to prepare students for many Information Technology careers. The jobs exist and IT Pathways can offer a solid background in computer applications, systems, and networking. Students can obtain industry certifications, learn wiring, computer assembly, networking, hardware installation, server design, group policy, create virtual machines, learn Linux, and learn cybersecurity. The IT Pathways at AHS provides hands-on experience leading to success in this rapidly growing industry.

A law banning TikTok has been enacted in the U.S. Unfortunately, that means you can't use TikTok for now.

We are fortunate that President Trump has indicated that he will work with us on a solution to reinstate TikTok once he takes office. Please stay tuned!

Tours headlined by Taylor Swift, Zach Bryan and Billie Eilish were among many that highlighted the issue, with overall ticket prices rising 35% since 2019, according to Pollstar. Steep prices for even nosebleed seats, coupled with unprecedented high demand, led to widespread criticism of bots, scalpers and companies for price-gouging and fueling fan frustration.

Red No. 3 has been banned in cosmetics since the 1990s due to its carcinogenic effects in animals.
